

Pictures to Share dementia collections

Newcastle Libraries

At Newcastle Libraries we have a number of Pictures to Share collections. These collections of high quality and beautiful books combine pictures and text for adults in a meaningful way and can help stimulate conversation between families, professionals and dementia sufferers.

These can also be used with stroke sufferers, as well as adults with learning disabilities and those with mental health needs.

Comments about the books

"Words can be difficult for people who suffer memory loss and their images and small amount of text in these books enable people who had this difficulty to enjoy books again"

"My mum and her friend, both with dementia thoroughly enjoyed sharing the books. These books prompt memories and produce much laughter"

"The images are delightful. My Mother is entranced by the colours and the quotations, she likes stroking the pages. These books have been a valuable resource."
