Ginette Cass	Specialty Doctor	I undertake medical roles (sub-investigator) for pharmaceutical sponsored clinical trials in dementia. At times this will involve attending investigator meetings funded by the companies to ensure safe delivery of the studies. I do not receive any direct payment for my involvement in these studies. All the studies have the necessary NHS and R&D approvals and approved by the NIHR to be conducted in the NHS. The portfolio of studies is dynamic in that we are approached to conduct clinical trials on a regular basis throughout the year but usually only conduct about 3 or 4 commercially sponsored trials (often in collaboration with NUTH NHS trust) at any one time.	01/10/2014	NULL	Y	Sponsored research	Declaration

At times this will involve attending investigator meetings funded by the companies to ensure safe delivery of the studies. I do not receive any direct payment for my involvement in these studies. All the studies have the necessary NHS and R&D approvals and approved by the NIHR to be conducted in the NHS. The portfolio of studies is dynamic in that we are approached to conduct clinical trials on a regular basis throughout the year but usually only conduct about 3 or 4 commercially sponsored trials (often in collaboration with NUTH NHS trust) at any one time.	05/10/2017	NULL	Y	Sponsored research	Declaration

Through these grants i have had flights paid to attend research meetings as part of the team, but this has been strictly to allow me to complete the work asked of me by the team, and flight have been booked by the R and D department or the University only. Please contact me if you require any further details.
