

Service User and Carer Reference Group

We believe it is crucial to involve the people accessing Northumberland Tyne and Wear NHS Foundation Trust services in the design, delivery and evaluation, to ensure that the needs of service users and carers are represented and reflected at the heart of everything we do.

We are a forum made up of individuals from statutory services, third sector community groups as well as individual carers and service users that work towards continuous improvement of Mental Health Services by utilising the group's assets and expertise.

We meet bi-monthly in the Centre of Newcastle using the skills, knowledge and experiences of all members of the group, working together to promote and develop shared values which help us to fundamentally shape the future of Northumberland, Tyne and Wear NHS Foundation Trust.

Lunch and travel expenses will be provided.

For further information please contact Ashton Davidson on 01670 501816 or Ashton.Davidson@ntw.nhs.uk
