Introduction

This leaflet provides you with information about the Psychiatric Liaison Team (PLT). If you are not sure about anything in this leaflet please ask a member of staff.

Who you may meet:

- Specialist medical doctors (called 'Psychiatrists')
- Registered mental health and learning disability nurses
- Specialist Nurses in younger persons or addictions
- Clinical support workers
- Peer supporters
- Administrative staff

What does the Psychiatric Liaison Team do?

The Psychiatric Liaison Team provides assessment of mental health, and treatment of any mental health problems, to people attending a general hospital. The general hospital team will ask us to review you if they have any concerns relating to your mental health. We can then provide an assessment and offer you support.

What to expect during our assessment:

- There are usually two members of staff that will come to speak to you about your mental health. We will talk through what needs you may have and how we might help.
- The team may ask to speak to your family/carers, educational support, regular care providers or social workers as part of your assessment to help support you on discharge.
- We will always ask your permission to share information with others involved with your care.

Interpreters

If you need an interpreter, please let your referrer know so that one can be arranged for you.

Privacy and dignity

- When you are seen we will always try to do the utmost as possible to respect your privacy and dignity.
- You can be seen in a private area, if one is available.
- You can choose whether or not a relative, friend or advocate accompanies you.
- We will encourage you to be involved in decisions about any treatment offered.

What happens next?

- You will be offered a follow up appointment either with your regular care team if you have one, or the Universal Crisis Team. This will be discussed with you in more detail at your assessment.
- We will complete a safety plan with you which is written in this leaflet.
- Relevant information you gave to the psychiatric liaison staff will be given to the hospital team looking after you to help support you.
- We will write to your GP and other agencies involved in your care to update them; we will also ask if you would like a copy of this letter.
