# The Health Transition Team support young people aged 14 to 19 years old.

---

We help young people to move from using children's learning disabilities service to using adult learning disabilities services.

We work closely with young people, their families and carers.

We check that young people have good health care as they move from children's to adult services.

We make sure that young people's health care needs are part of their Education, Health and Care Plan.

We help adult learning disabilities services to understand the young person's health needs.

# We help to make sure young people can use mainstream health services.

---

Mainstream health services are the health services that everyone else uses. These include:

We speak up for young people

We work with GP surgeries so young people can have an annual health check from the age of 14.
